

## Bob Gay Cytotechnology Scholarship

**Description:** The Bob Gay Cytotechnology Scholarship was founded by Kim Kowalczyk, Bob's daughter. Bob Gay was dedicated to supporting and advocating for the field of cytology. He was a founding year member of the ASCT and played an integral role in establishing the ASCT Foundation. Bob served in several leadership capacities for the ASCT including a term as regional director from 1996-2000 and as president from 2000-2001. Bob also served on the ASCT Services, Inc. Board as treasurer from 1998-1999 and again from 2004-2007. Beginning 2018, the scholarship will be awarded to two cytotechnology students annually. The award will be \$1000.00 per student plus sponsorship (travel and accommodations) for both students to the upcoming ASCT annual conference where the scholarships will be awarded.

**Eligibility Criteria:** The following criteria are used to select each scholarship recipient:

- The recipient must be a member of the American Society for Cytotechnology (ASCT) at the time of application. (Student membership is complimentary).
- The recipient must currently be enrolled in good standing in an accredited school of Cytotechnology in the United States.
- \*The recipient must have an overall GPA of at least 3.0, including pre-requisite courses. Determined by officially sealed transcript from the Cytotechnology program, official eTranscript, or an email or fax from an instructor or program director of Cytotechnology with an official school transcript.
- Scholarship will be open to certificate, bachelors, and graduate degree seeking students.
- A student that is the recipient of the scholarship is not eligible to apply again.

\*If the cytotechnology program the student is enrolled in does not generate course grades until completion of the program, the director must submit the course average earned by the student for the time that s(h)e has been enrolled.
